PROFILE

[My Portfolio](#)

[Hafiz Noman Amin](#)

A skilled **Full Stack Developer** passionate about building **scalable, high-performance web & mobile applications**. I excel at solving complex problems, optimizing user experiences, and delivering efficient solutions. Focused on clean architecture and maintainability, I strive for excellence in every project. Eager to take on new challenges, **I am now seeking opportunities to work in MERN Stack (especially Next.js)** and advance my expertise in modern web apps development

WORK EXPERIENCE

Next.Js / React Developer

(May 2024 -Current)

Bin Mohammad Tech. | Lahore, Pakistan

Built interactive software and admin panels for mobile apps using TypeScript, Tailwind CSS, and ShadCN-UI. Developed dynamic web applications with Next.js, integrating the Sanity content platform, Zod for validation, and NextAuth for authentication. Created custom, high-performance websites with CSS and JavaScript.

Key Projects: [Al Huda Institute](#) | [BM Tech](#) | [KN App](#)

Shopify Full Stack Developer

(Aug 2023 - March 2024)

Prismfly | Dallas & New York

Developed Shopify themes and apps with Liquid, JavaScript (ES6+), TypeScript, and React.js. Created custom UI components like mega menus and sticky headers. Built scalable apps with Remix, PostgreSQL, and Prisma, ensuring code quality and smooth execution.

Key Projects: [Good Store](#) | [Visbiome US](#) | [Evo Powersports](#)

MERN Stack Developer

(Jan 2023 - Aug 2023)

Truzak Technologies Inc. | Ontario, Canada.

Worked on building a comprehensive property management system focused on record-keeping, administration, and seamless communication. Implemented robust user authentication with JWT for token-based security and integrated strong third-party **OAuth 2.0** authentication with Google.

EDUCATION

BS Computer Science

Virtual University Of Pakistan.

FSC(Pre-Engineering)

Govt. College Of Science,
BISE Lahore.
